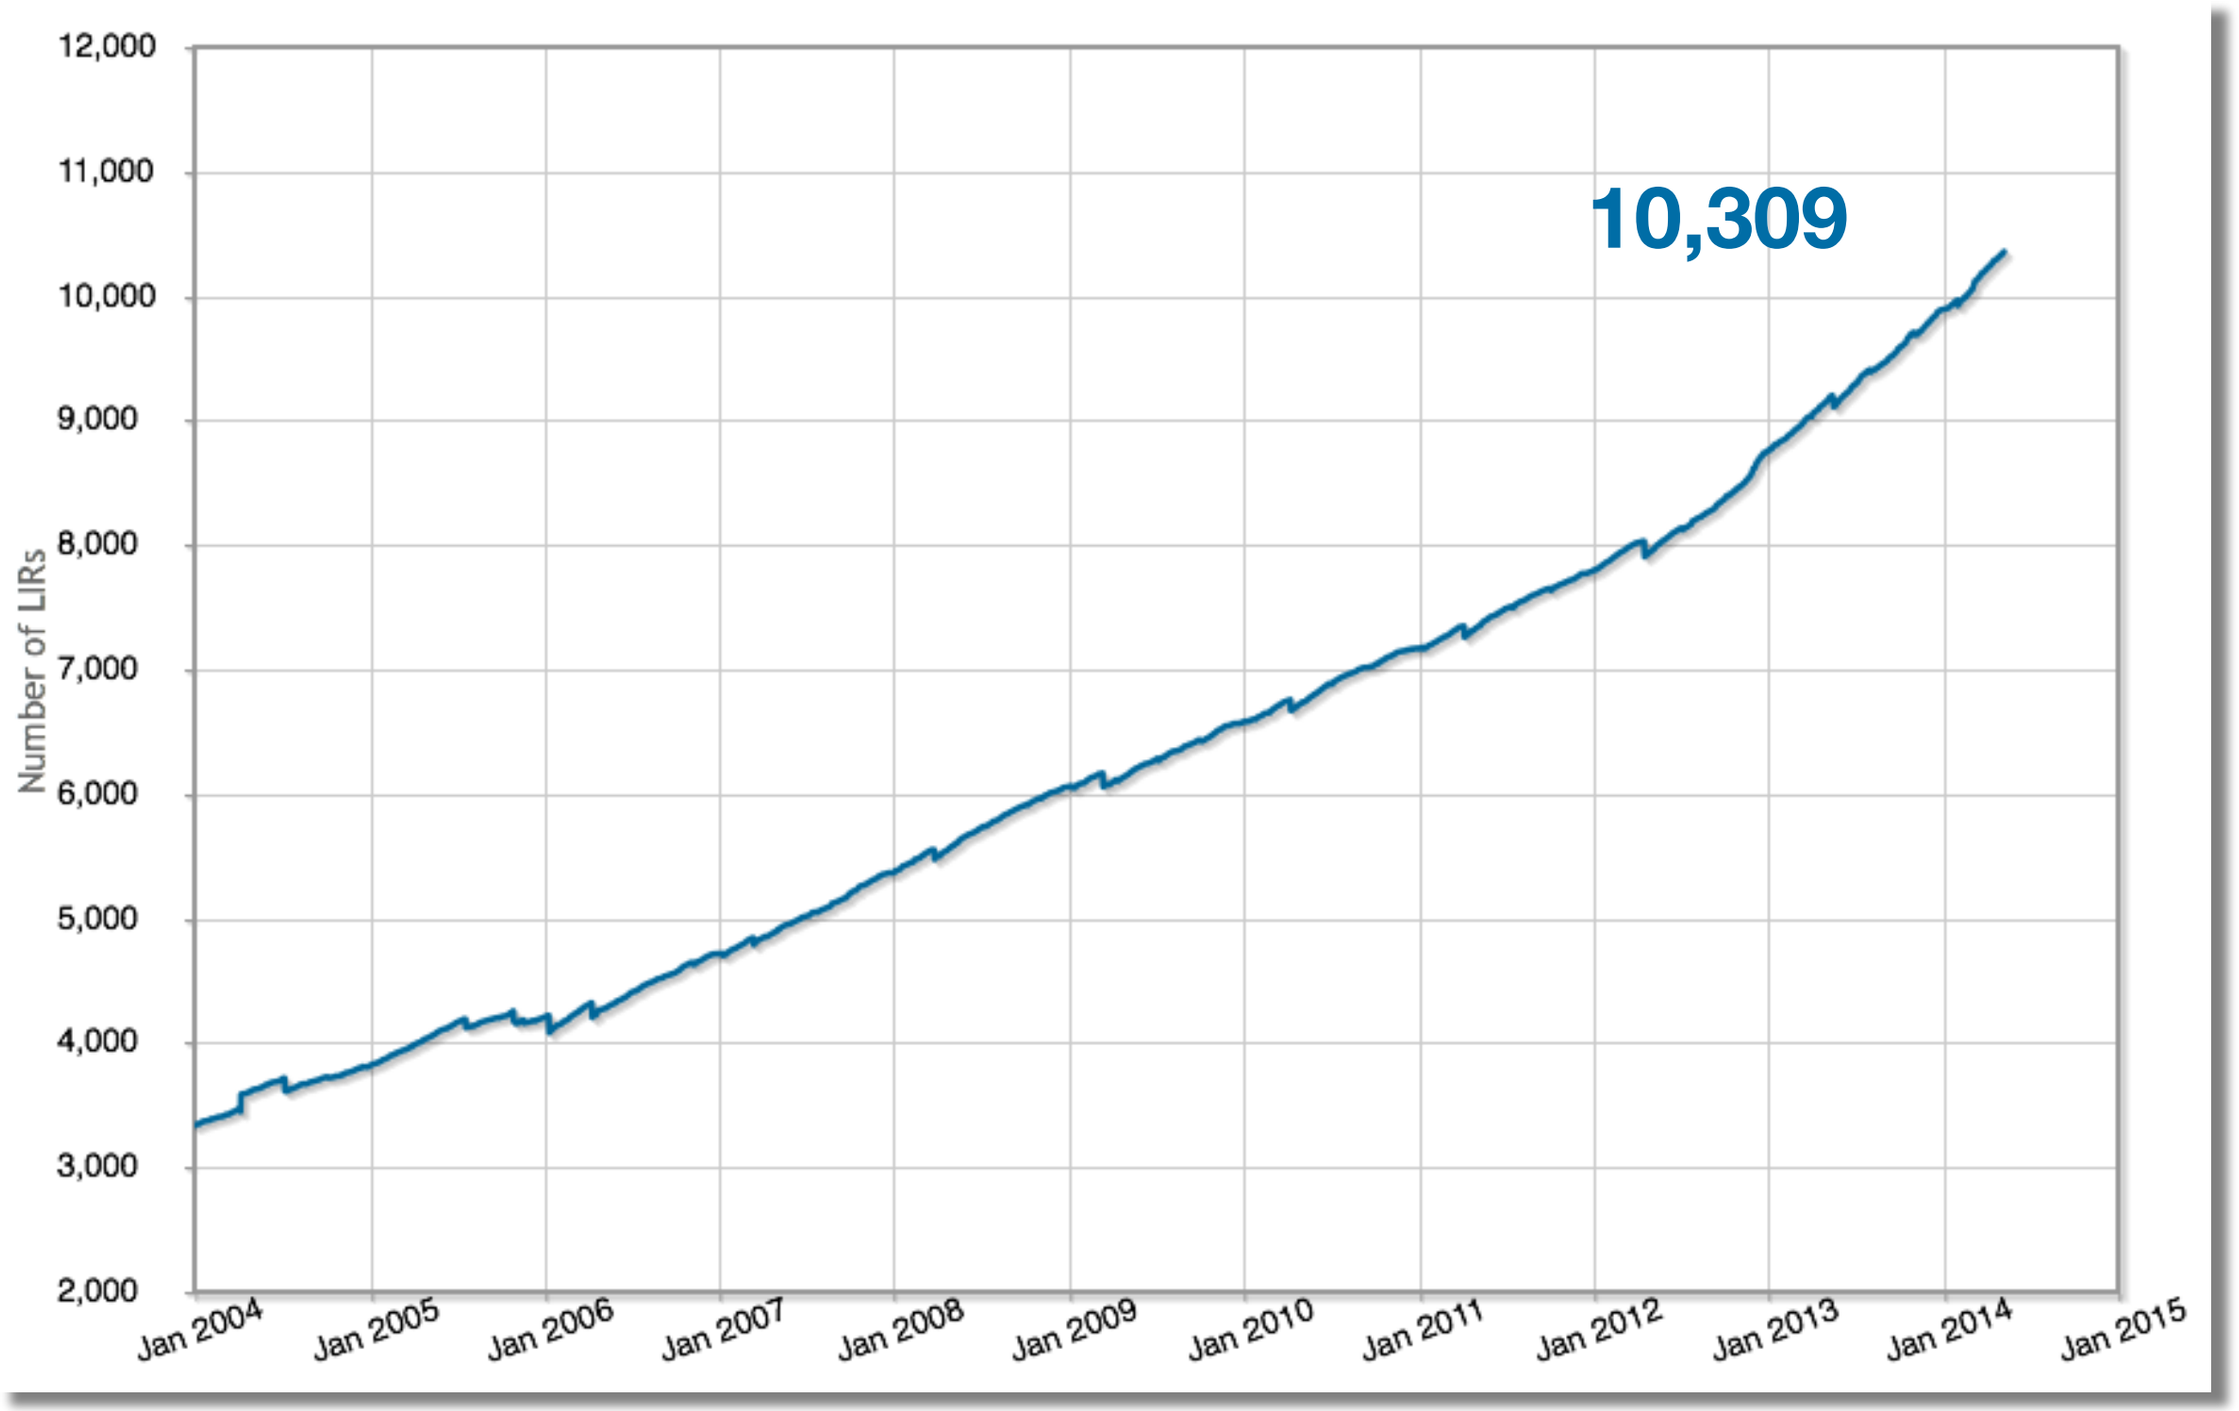
# RIPE NCC Update

Axel Pawlik
Managing Director

RIPE NCC | Moscow | May 2014

# Over 10,000 RIPE NCC Members



Source: https://labs.ripe.net/statistics

# Annual Report 2013

- Operational Highlights (end 2013):
  - Strong growth: 1,139 additional members in 2013
  - 1,896 /22 IPv4 allocations and 1,724 IPv6 allocations
  - IPv6 allocation take up is > 66% of membership
  - 6,400 PI contractual relations processed (2007-01)
  - 20% of our members have their resources certified
  - Almost 5,000 active RIPE Atlas probes
  - 1 Million RIPEstat users (up from 122,000 in 2012)

# Annual Report 2013

- Financial Overview
  - Operational expenses were 3% lower than budget
  - Staff numbers are steady (3% lower than budget)
  - Reserves level remains at around one year's operational expenses
  - Cost per member still falling (6% lower than 2012)

# Health of the RIPE NCC

- Continually striving to keep the organisation:
  - Stable, Secure and Resilient
  - *Useful to our members*
- RIPE Database: Improved documentation and release processes
- Assisted Registry Check (ARC) initiated
- Replacing and improving internal systems
- Resiliency project initiated (site in Sweden)
- Corporate governance documents in check

# Increased Risk for Hijacks

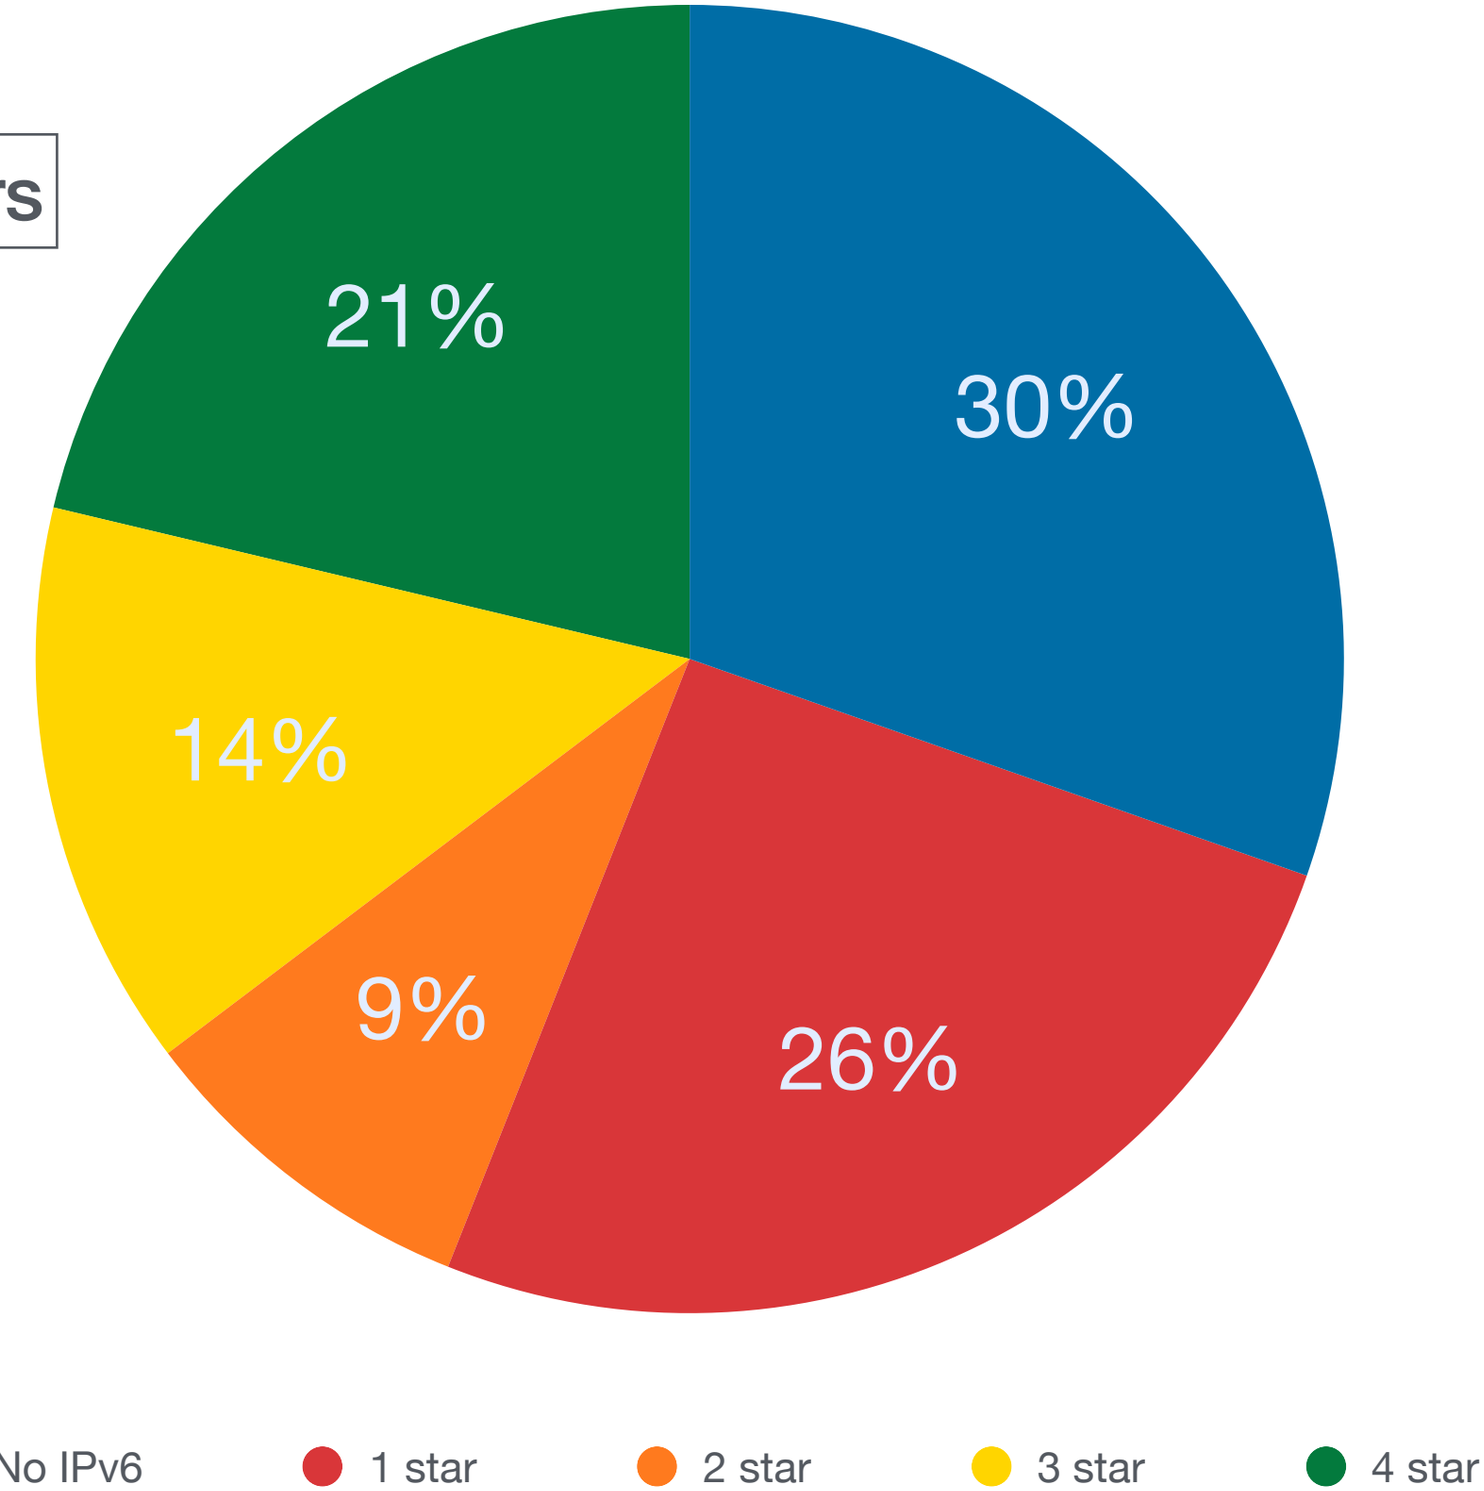
- IPv4 addresses are becoming more valuable
- Criminals try very sophisticated methods to obtain control over unused address blocks
  - Faking registration and identity papers
  - Faking entire websites and domains
- RIPE NCC has to do more thorough checks
  - Unfortunately, it can take extra time to process requests
  - Please cooperate by supplying the required documents

# Help Us Protect Your Resources

- Hijacks often target address blocks with outdated contact details
- Make sure your contact persons and company details are up-to-date
  - Check the LIR Portal and update contact information
  - Verify all entries in RIPE Database
  - Process any changes right away
- RIPE NCC relies on this information to validate any requested changes
  - Contact us if you need assistance updating your details

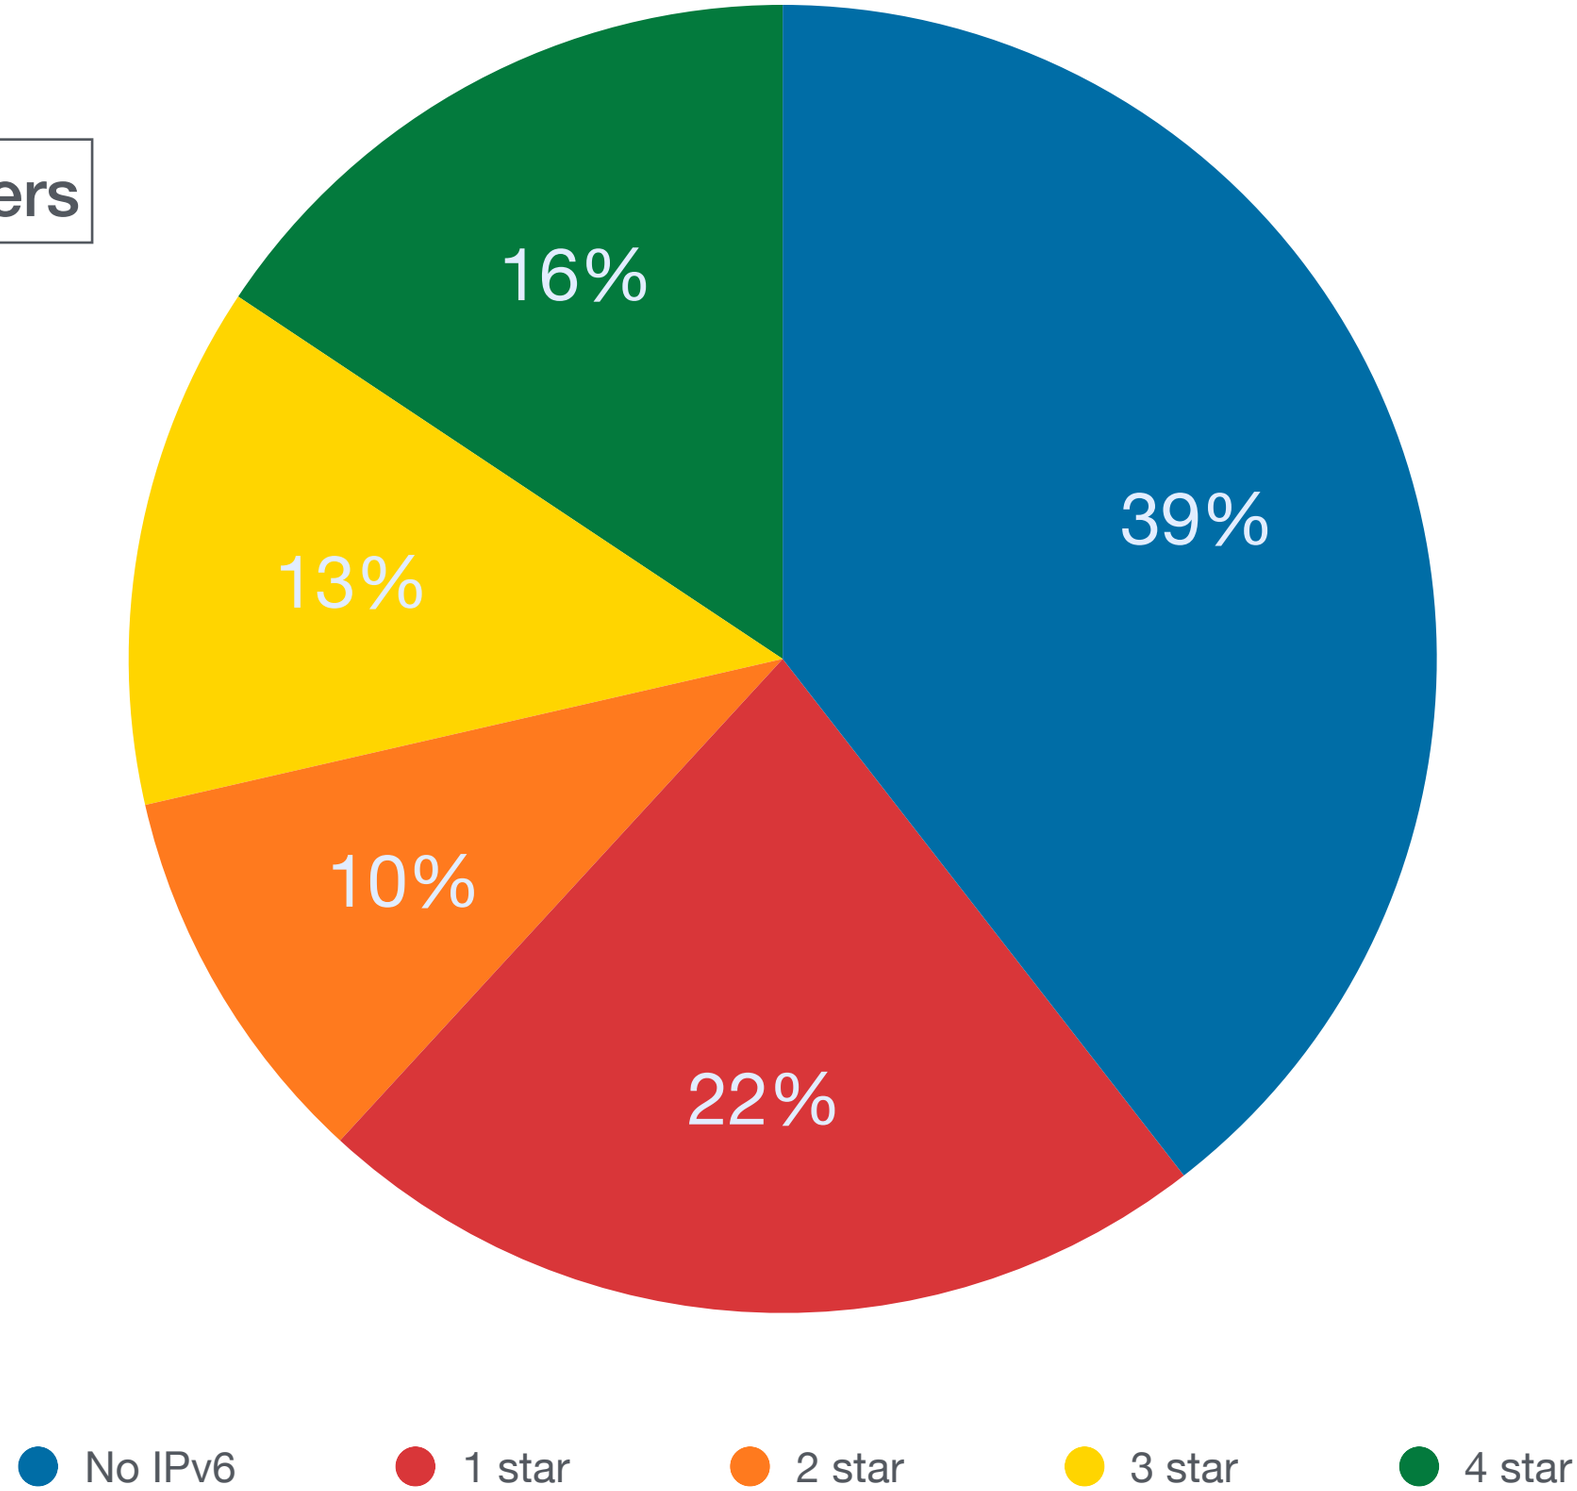
# IPv6 RIPEness Amongst Members

10,309 Members

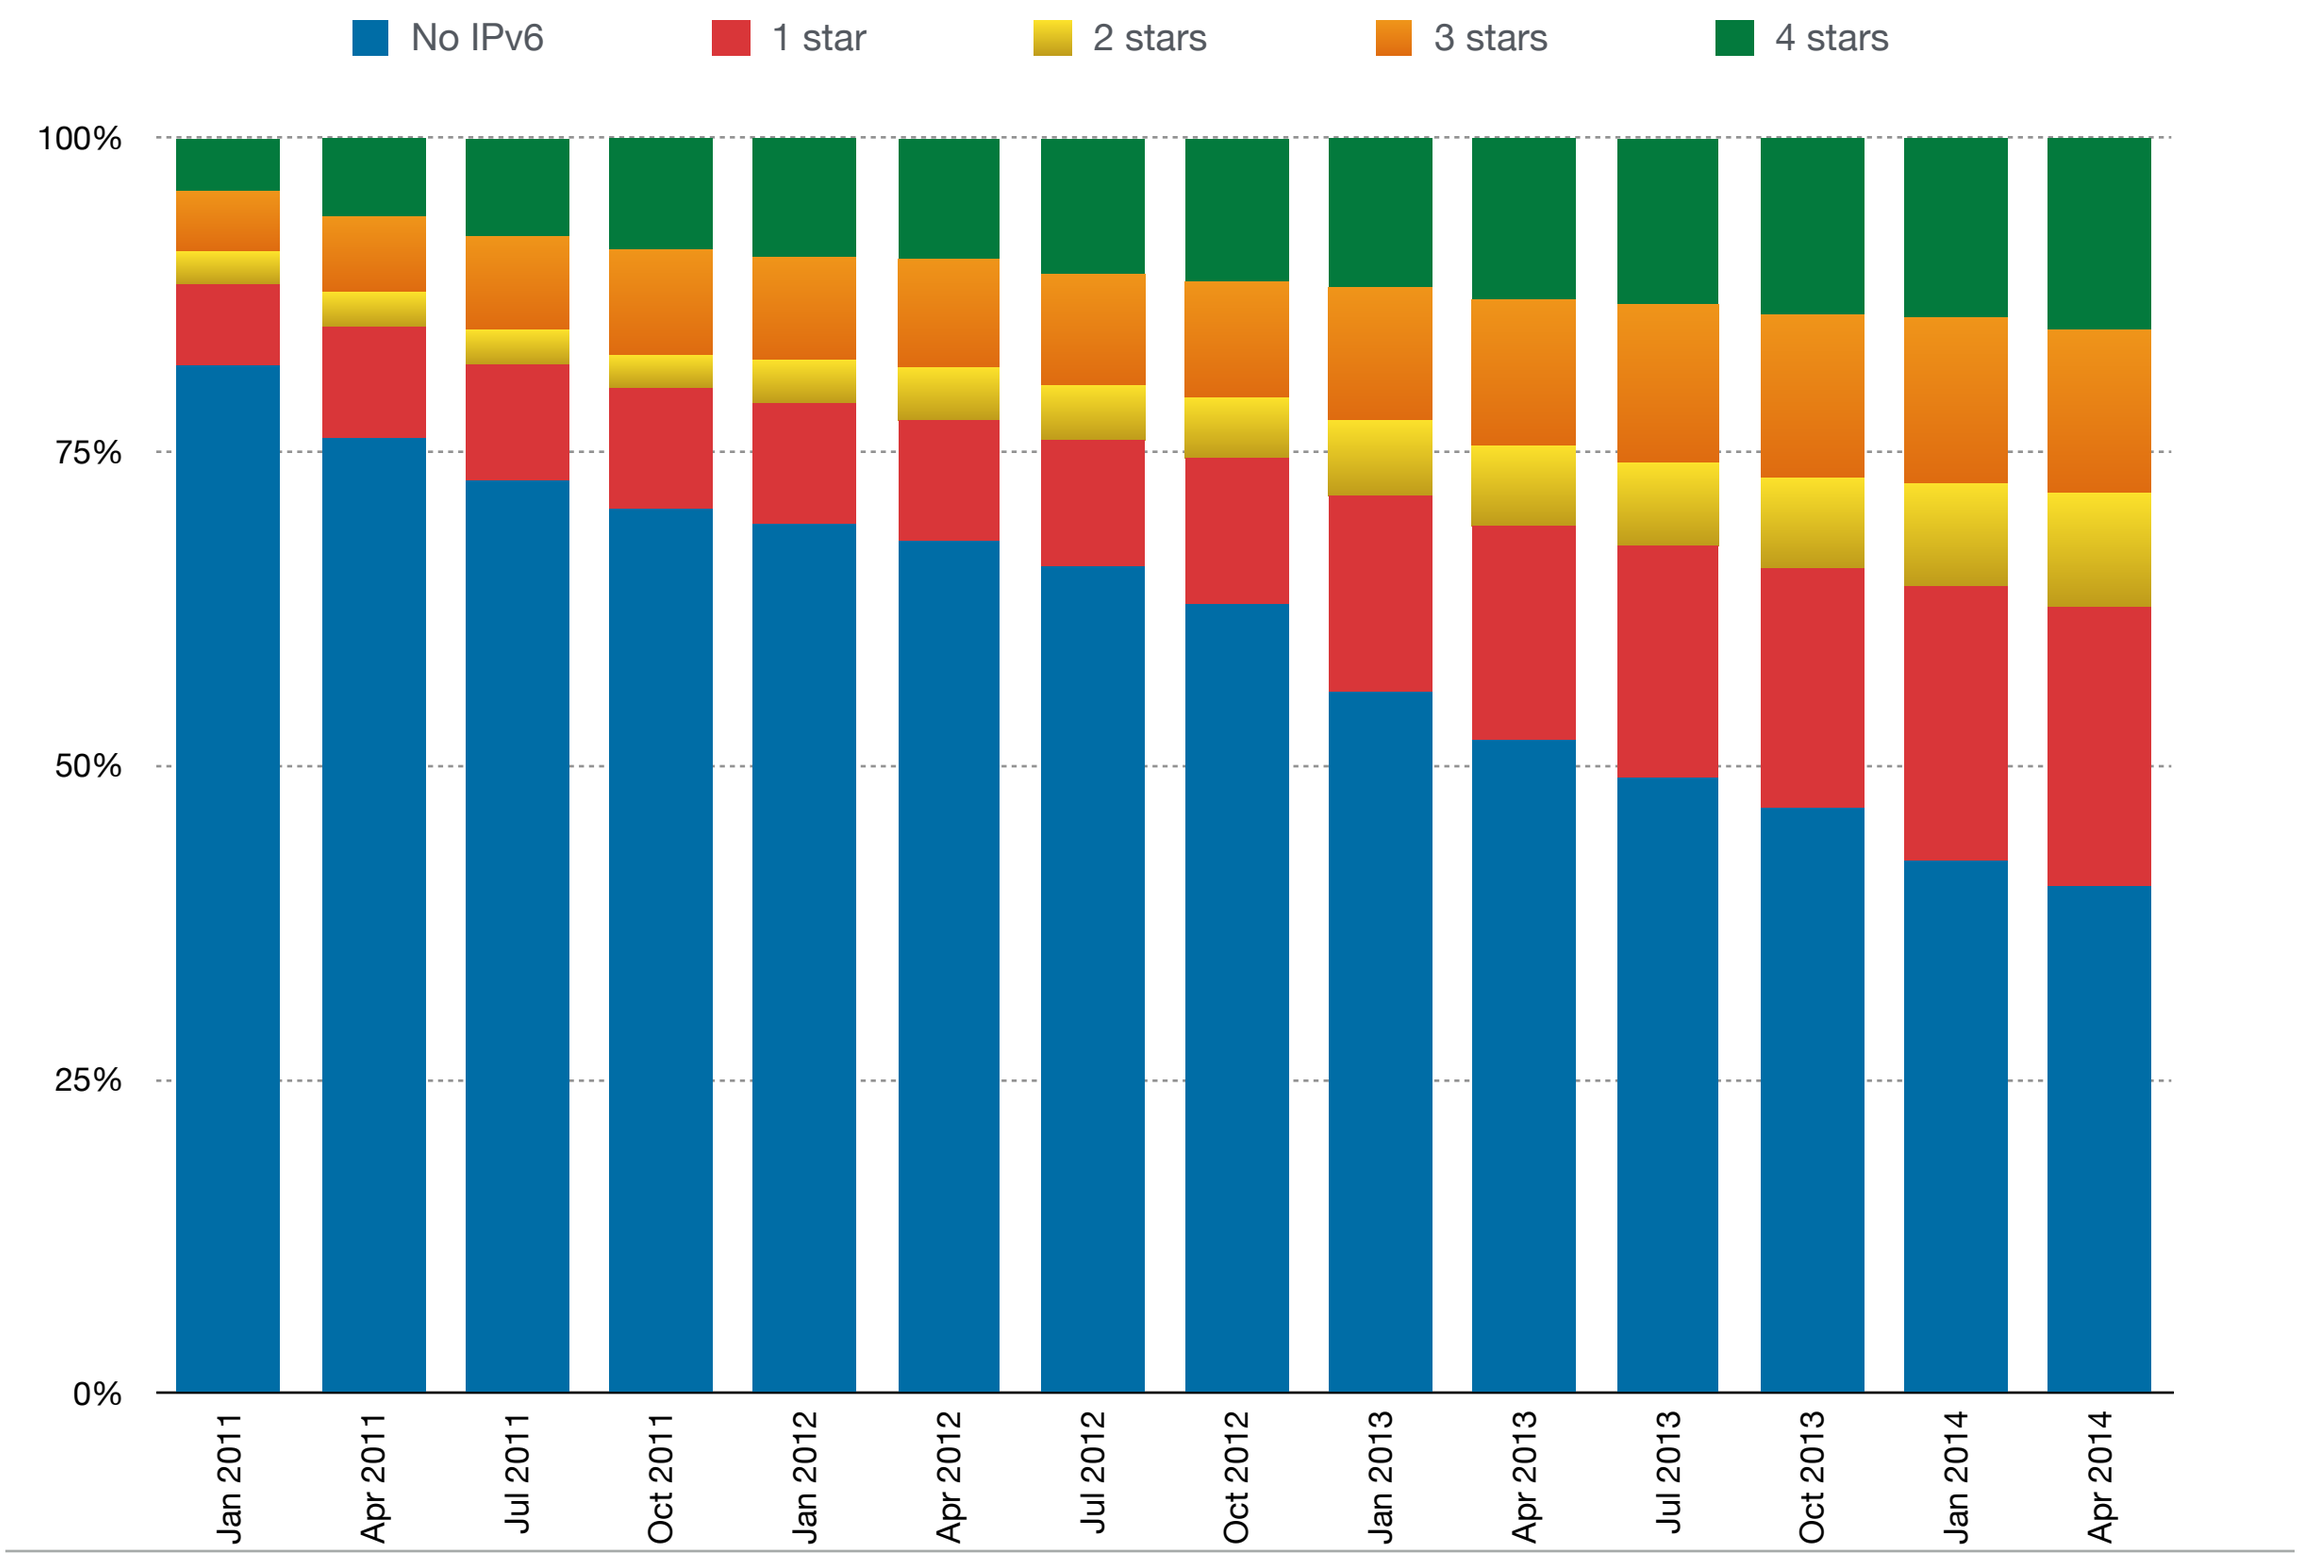


# IPv6 RIPEness Russian Federation

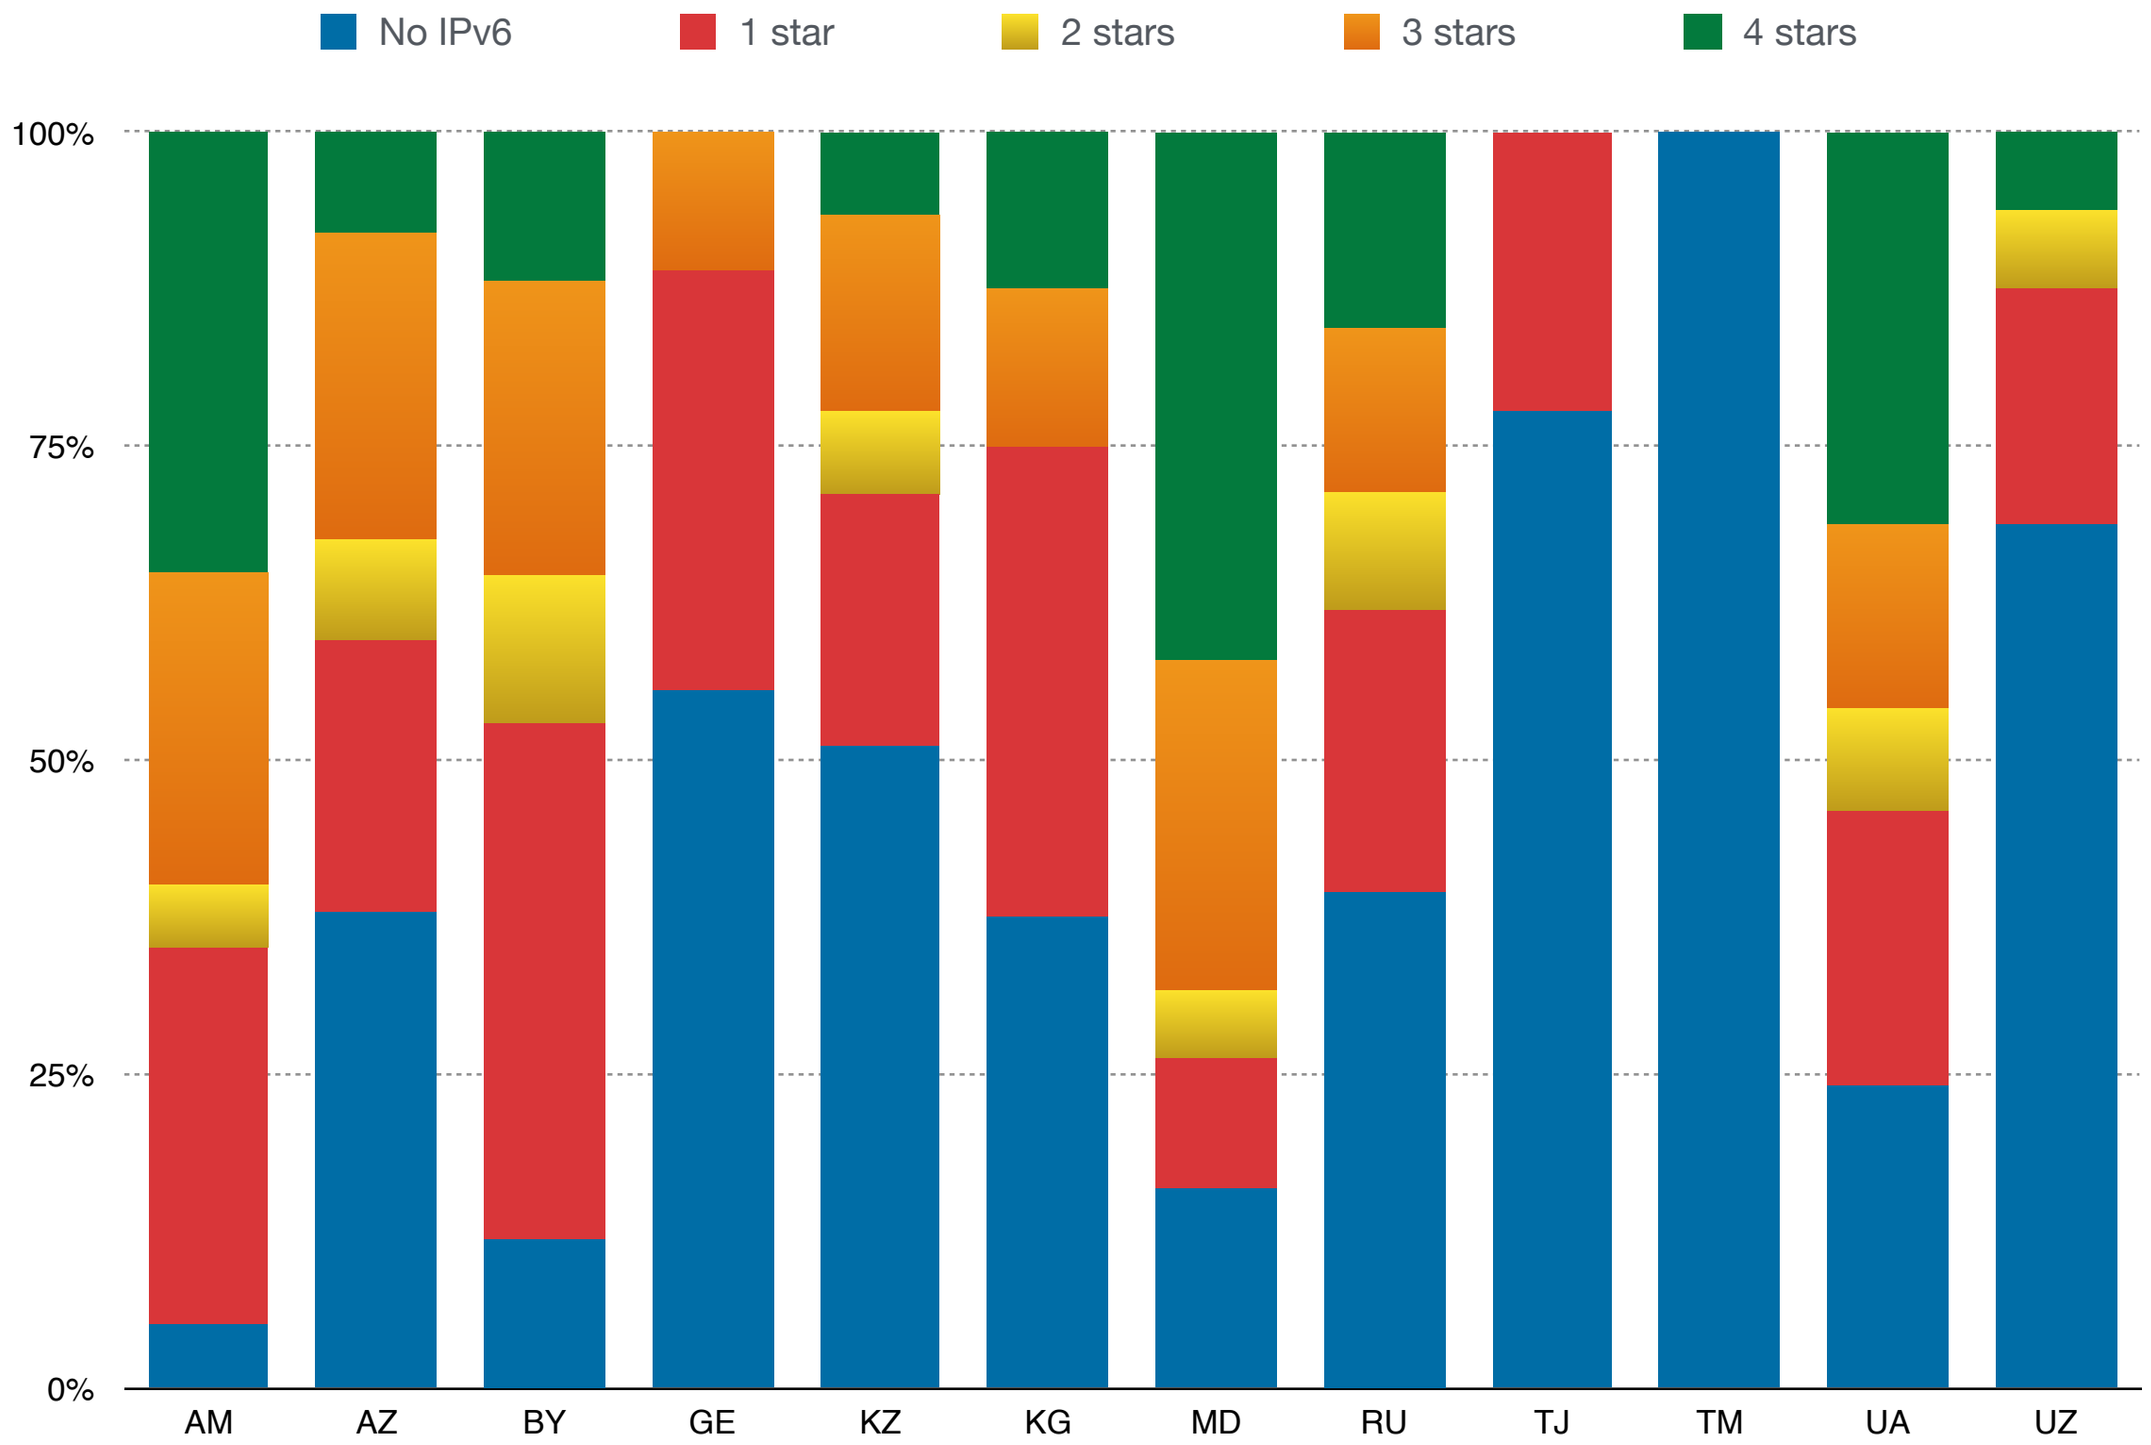
1,145 Members



# IPv6 RIPEness Over Time (RU)



# IPv6 RIPEness CIS Region (relative)



# More Improvements

- Investigating supporting more languages
  - Provide translations of key documents and information
- More contact with membership
  - Small-scale events such as dinners and lunch meetings
- Advancing capacity building
  - Introducing two-day technical IPv6 training
  - Improving E-learning platform and courses
  - IPv6 Roadshow material rewritten
- Collecting input on website improvements

# RIPE NCC General Meeting

- GM held in Warsaw during RIPE 68 on 14 May
- 2015 Charging Scheme was adopted
  - €1,600 per annum (€150 down on 2014 fee)
- Adoption of implementation process of RIPE NCC services to Legacy Resource Holders
- RIPE NCC Executive Board elections
  - three vacant seats filled by Maria Häll, Salam Yamout & Christian Kaufmann

# Our Regional Presence

- The RIPE NCC Survey 2013 results indicated that you wanted us to be more present in all regions
- We have increased the number of regional meetings
  - SEE 4 in 2015 - Belgrade
  - Kazakhstan and Iran 2014, Georgia 2015
- Expanding Dubai office
  - Two new Arab employees hired
- We already have one staff member based in Moscow
  - Interviewing for second staff member

# Questions?
