RIPE Networking App

Adam Castle
Web Services Manager
RIPE NCC

What is the RIPE Networking App?

- An application that works on desktop, but also Google and Apple mobile devices

- Helps you meet fellow attendees

- View the agenda of ENOG 15

Why Have an App?

- Requested at many meetings

- Attendees want to meet and connect easily

- Most people use two devices at a meeting

How Does it Work?

- You need a RIPE NCC Access account

- Go to https://networking-app.ripe.net or find it on your device store
